

Congress Rental SA ... a leading conference equipment supplier

CONGRESS Rental South Africa (Pty) Ltd has for over 20 years refined its skills and expertise within the conferencing industry to become

one of the leading suppliers of conferencing equipment and interpretation services.

During October and November of 2008 Congress Rental was chosen as the main supplier for the three large international meetings across the country. This was an honour and a privilege, but also another manner in

which to reinforce Congress Rentals reputation of being the best.

At the conclusion of the conferences the feedback from clients and interpreters alike was fantastic for Congress Rental.

A senior ITU manager even went on to say, "...It was the best conference experience I have ever had!"

Others went onto credit the workmanship and teamwork of all involved, stating, "Your professionalism and competence were also greatly appreciated by both the delegates and the ITU staff and highly contributed to the success of both meetings in South Africa".

Carlos Wesley, a Spanish interpreter at the AWID conference believed "...the golden standard for hospitality is the one you [Congress Rental] have set in Cape Town, South Africa." ■
